

Description

ProSource Liquid is a Food for Special Medical Purposes for use under medical supervision. ProSource Liquid is a low volume, high protein (10g / 30ml), 3.3 kcal/ml, low electrolyte, ready to use supplement suitable for patients with increased protein & calorie requirements. ProSource Liquid contains all essential and non-essential amino acids. ProSource Liquid can be taken orally, administered with a tube feed, or added directly to a patients meal, drink or sip feed; and its low volume makes it suitable for patients requiring a fluid restricted diet.

Presentation & Pack Size

Presented in 30ml sachets. Available in packs of 100 x 30ml sachets. Prescribing unit 100 x 30ml sachets.

Flavours

ProSource Liquid is available in 3 flavour variants: Original, Orange Creme, Citrus Berry.

Indications

For the dietary management of conditions requiring supplementation with protein. ProSource Liquid is ACBS approved and prescribable on FP10/GP10 for the following indications: Hypoproteinaemia

Precautions & Contra-indications

Must be used under strict medical supervision. Not for intravenous use. Not suitable as a sole source of nutrition. Not recommended for children under 3 years of age. May not be suitable for vegetarians and other groups due to processing of some of the ingredients. May contain porcine derivatives.

Administration & Dosage

ProSource Liquid should be administered by a clinician or dietitian. Dosage is dependent on the age, body weight and medical condition of the patient.

Directions for use

ProSource Liquid is a ready to use liquid and can be added without the need for pre-mixing, directly into hot or cold foods, drinks, supplements. ProSource Liquid can be administered with enteral tube feeds.

Drinks & Supplements – add 1 sachet directly to hot / cold drinks or supplements, stir gently and consume.

Food – add 1 sachet directly to hot / cold food, stir in gently and consume.

Enteral Tube Feeding – Flush feeding tube. Mix 1 sachet of ProSource Liquid with 30ml of water, stir and infuse via feeding tube using a syringe. Once infused, flush tube with 30ml water and then continue enteral tube feeding as prescribed.

Shelf Life & Storage

ProSource Liquid has a shelf life of 18 months from date of manufacture. Store unopened at room temperature (not exceeding 25°C). Once opened, consume immediately.
